RE: TINTING OF GOVERNMENT VEHICLES

Date: 26/01/04

The Land Transport Authority has registered its concern on the number of heavily tinted government vehicles currently in use.

Under Regulation 50 of the Land Transport (Vehicles Registration and Construction) Regulations 2000, a vehicle that is tinted must have 70% visible light transmittance through the front seat windows and not less than 35% through the rear seat windows of the vehicle.

As the Authority will be mounting a compliance operation in the near future, you are requested to ensure that all vehicles under your control comply with the above regulation unless a dispensation has been granted by the relevant authorities in respect of a particular vehicle.

Your co-operation in this matter will be greatly appreciated.

Revita Banuve
Chief Executive Officer, Finance and National Planning
